| 4.01.24       | Concept of region and regional Planning   |
| 5.01.24       | Revision                                  |
| 6.01.24       | Test                                      |
| <b>WEEK 2</b> |                                           |
| 8.01.24       | Concept of development                    |
| 9.01.24       | regional development                      |
| 10.01.24      | regional development                      |
| 11.01.24      | Test                                      |
| 12.01.24      | concept and theoretical Framework         |
| 13.01.24      | concept and theoretical Frameworks        |
| <b>WEEK 3</b> |                                           |
| 15.01.24      | Test                                      |
| 16.01.24      | Revision                                  |
| 18.01.24      | concept of region                         |
| 19.01.24      | regional Planning                         |
| 20.01.24      | Test                                      |
| <b>WEEK 4</b> |                                           |
| 22.01.24      | Revision                                  |
| 23.01.24      | geography and planning selection of India |
| 24.01.24      | geography and Regional Planning           |
| 25.01.24      | selection of Indicators                   |
| 27.01.24      | measures of regional disparities          |
| <b>WEEK 5</b> |                                           |
| 29.01.24      | Revision                                  |
| 30.01.24      | Test                                      |
| 31.01.24      | geography and regional Planning           |
| 01.02.24      | selection of Indicators                   |
| 02.02.24      | measures of regional disparities          |
| 03.02.24      | Test                                      |

| WEEK 6         | DESCRIPTION                                                  |
|----------------|--------------------------------------------------------------|
| 05.02.24       | Regional Growth Theories<br>Friedman's core-periphery theory |
| 06.02.24       |                                                              |
| 07.02.24       |                                                              |
| 08.02.24       |                                                              |
| 09.02.24       |                                                              |
| 10.02.24       | Polarisation and Trickle-down effect                         |
| <b>WEEK 7</b>  |                                                              |
| 12.02.24       | Theory of Hirschman                                          |
| 13.02.24       | Test                                                         |
| 15.02.24       | Revision                                                     |
| 16.02.24       | Test                                                         |
| 17.02.24       | circular and cumulative causation                            |
| 19.02.24       | Model of Myrdal                                              |
| <b>WEEK 8</b>  |                                                              |
| 20.02.24       | Growth pole theory of Perroux                                |
| 21.02.24       | Test                                                         |
| 22.02.24       | Revision                                                     |
| 23.02.24       | Model of Myrdal                                              |
| 24.02.24       | Growth pole theory of Perroux                                |
| 26.02.24       | Test                                                         |
| <b>WEEK 9</b>  |                                                              |
| 27.02.24       | Planning Process: Type Planning                              |
